This Company has a large tonnage of High Grade Vanadium Ore on its dumps and is crowding development work and getting ready to install equipment for the reduction of their ore.

The demand for Vanadium is strong. The consumption of Vanadium Steel has increased since 1913 from 90,000 tons to approximately 800,000 tons in 1916 and it is a safe guess that it will reach 1,500,000 tons for the year 1917.
